SPC-HEVA2 Céos

FRIAX INDUSTRIE

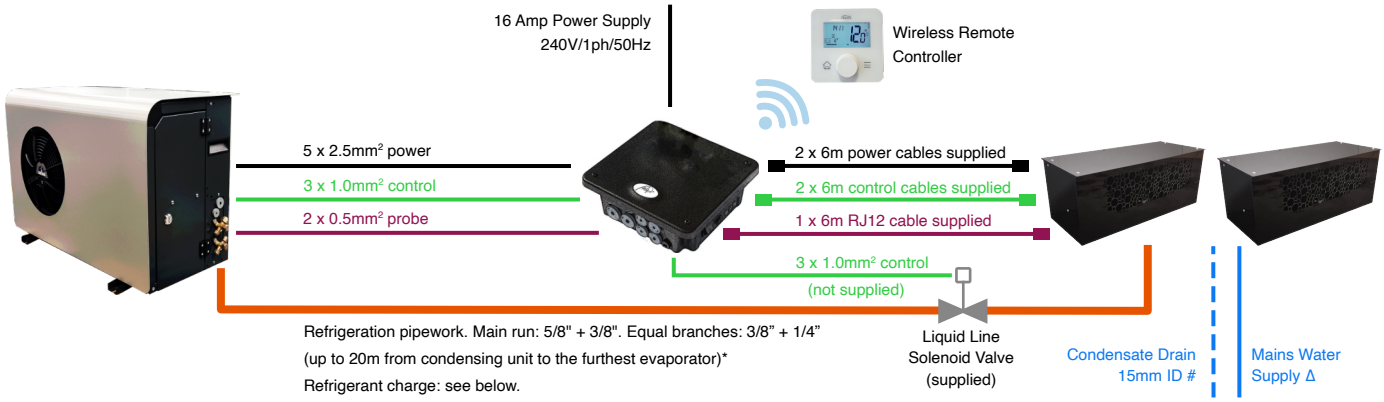

SPC-30, 48 & 82 HEVA2 CÉOS — COOLING & HUMIDIFICATION

SPC-122 HEVA2 CÉOS — COOLING & HUMIDIFICATION

SPC-170 HEVA2 CÉOS — COOLING & HUMIDIFICATION

REFRIGERANT CHARGE R513A					
SPC-GCH	**30**	**48**	**82**	**122**	**170**
Refrigerant charge up to 6m (grams)	500	600	900	950	1650
Additional charge per metre (grams)	20	20	20	20	20
Max. pipe run incl. max. 8m riser (cond. unit to furthest evaporator)	20m	20m	20m	20m	20m

NOTES	
*	Pipe sizes shown are applicable for pipe runs up to 20m (including a maximum 8m vertical). Good refrigeration practice should be applied regarding oil traps etc. For longer pipe runs contact Heronhill.
#	An optional internally mounted condensate pump is available (code: KPR-UF).
Δ	Water connection requires a KLPWSECU-XJ Water Connection Kit. A 15mm mains water supply should be provided locally to the indoor unit position. The final connection is made with ¼" micro-bore pipe included in the kit.
