Friax GCW water-cooled condensing unit models

SPC-WEVX2 Vintage

SPC-30/48 WEVX2 VINTAGE — COOLING, HEATING & HUMIDIFICATION

WATER-COOLED

REFRIGERANT CHARGE R513A					
SPC-GCW	**30**	**48**			
Refrigerant charge up to 6m (grams)	1175	1230			
Additional charge per metre (grams)	20	20			
Max. pipe run incl. max. 8m riser	20m	20m			

NOTES	
#	An optional internally mounted condensate pump is available (code: KPR-UF).
*	Pipe sizes shown are applicable for pipe runs up to 20m (maximum 8m vertical). Good refrigeration practice should be applied regarding oil traps etc. For longer pipe runs contact Heronhill.
Δ	Water connection requires a KLPWSECU-XJ Water Connection Kit. A 15mm mains water supply should be provided locally to the indoor unit position. The final connection is made with ¼" micro-bore pipe included in the kit.
